

### 3. Centurion 4PH

The Centurion 4PH comes with 4 leg wraps, a body blanket, 2 Splitter Boxes and a carry case. A powered unit which can be used to treat any part of the horse. The blanket is constructed of a heavy cotton twill for withstanding lots of wear and tear. Our most popular model because of its versatility. Leg wraps are used on legs or placed in an open position into the pockets of the blanket to get a concentrated treatment where necessary.

Frequency settings are 1 to 60 Hertz

Intensity settings are 50 to 100 Gauss

Timer 1 to 99 Minutes

Optional Hock Boots and Summer Blanket available.
